MEMORANDUM

MAY 12 1987

TO: Dr. G. Bruce Wiersma, INEL
FROM: A. R. Gittins, Dean
Graduate School
RE: Graduate Faculty Appointment

I am pleased to inform you the Committee on Graduate Faculty Appointments of the Graduate Council has approved your appointment to the associate rank of the Graduate Faculty. This empowers you to chair graduate student committees at the master's level. Please consult Section 2510 II-4 of the Faculty Staff Handbook (copy attached) for additional information regarding the rights, responsibilities, and restrictions of an associate member of the Graduate Faculty.

Associate Graduate Faculty appointments are generally made by the Graduate Council to applicants who have not previously had experience directing the activity of graduate students. We have been most appreciative of your very cooperative research association with the University of Idaho and are certainly vitally interested in seeking your help and assistance in contributing to our graduate programs. Your wide, intense experience and productivity in research will prove valuable as you interact closely with graduate students on research projects.

Again, my congratulations to you on your appointment. Please do not hesitate to call upon this office at any time we might be of assistance to you or your graduate students.
