

MEMORANDUM

DATE: Aug. 19, 1986

TO: Leon Neuenschwander
FROM: Ed Krumpe
SUBJECT: INEL Baseline Monitoring Site at Taylor Ranch

Dean Hendee gave me the attached letter from G. B. Wiersma, INEL, Friday before he left on vacation. He asked me to make a copy for you too. This looks like an excellent opportunity and I think we should set up a meeting with him. (Of course, now you need to see the place even more before such a meeting!) Sept. 11 - 20 is out for me. Maybe October after your visit would work.

Dear Bruce:

Good to talk to you today. I look forward to meeting you in person and expanding a working relationship between INEL and our College. I'm delighted at your interest in our Taylor Ranch-Wilderness Research Center as a potential baseline monitoring site.

I'm enclosing some information about Taylor Ranch. Having just spent a week in the vicinity (including a 39-mile walk to get there). I'm more impressed than ever about the potential of the site for monitoring and research on natural systems. It has taken several years to bring the facility to its current situation. Now we are ready to build some programs around it. We look forward to taking you to the Taylor Ranch in the near future and talking about the possibilities.

If I am ever unavailable when you call, please speak with Dr. Leon Neuenschwander, Associate Dean for Research and International Programs, or Dr. Ed Krumpe, who is Director of the Wilderness Research Center.

Sincerely,

John C. Hendee
Dean

A quick note from

JOHN HENDEE, DEAN

September 18, 1986

University of Idaho

College of Forestry,
Wildlife and Range Sciences
Moscow, Idaho 83843

To: Leon Neuenschwander
✓ Ed Krumpe through Sam Ham
Mike Falter through Ernie Ables

At the Board of Directors meeting of the Idaho Research Foundation, Dennis Keiser, President of EG & G, Inc., the company that manages the Idaho National Engineering Laboratory, spoke to me enthusiastically about Bruce Wiersma's forthcoming visit with you October 3 to the Taylor Ranch. Dennis quoted Bruce's high praise for central Idaho as "the only unspoiled area left." The fact that Bruce contacted Dennis and both are excited about possibilities seems significant to me. I will maintain communication with Dennis Keiser. Please keep me informed.

Sincerely,

John C. Hendee
