*21*

I have sent memos to the attached list and letters to Hendee and Troyer asking them to serve. I took the liberty of including both Olson and Frank since representation of these two Colleges is important.

I have not sent a letter to Petrides yet; not because I think he should not be asked but because there is no representative of State Government nor the USFS. In an effort to keep numbers down I held off on Petrides because I think the latter two are particularly important. I would recommend Vern Hamre or his Regional counterpart and someone in State Recreation or Fish and Game or even a politician.

Please advise your wishes.

Also, in Hendee's letter you mention appointing him to Affiliate Faculty. I presume this has to go through the College of Forestry and/or the Graduate School. Please advise.

*Regental action

Dr. John Hendee  
Wildland Recreation Research  
4507 University Way, N.E.  
Seattle, Washington 98105

Dear Dr. Hendee:

Dr. Erickson, Director of our Wilderness Research Center has indicated that your expertise would be invaluable in a technical advisory capacity to the Center.

At his request it is my pleasure to ask you to serve on the Technical Advisory Committee of the Wilderness Research Center for a two year term.

In these early years of development of the Center, the full scope and breadth of Wilderness Research should be explored and our future course plotted. We hope you will assist Dr. Erickson in this endeavor. Please advise.

Sincerely,

A handwritten signature in cursive script that reads "R. W. Stark".

Mr. Willard Troyer  
Wilderness Supervisor  
U. S. Fish and Wildlife Service  
Anchorage Alaska

Dear Mr. Troyer:

Dr. Erickson, Director of our Wilderness Research Center has indicated that your expertise would be invaluable in a technical advisory capacity to the Center.

At his request it is my pleasure to ask you to serve on the Technical Advisory Committee of the Wilderness Research Center for a four year term.

In these early years of development of the Center, the full scope and breadth of Wilderness Research should be explored and our future course plotted. We hope you will assist Dr. Erickson in this endeavor. Please advise.

Sincerely,

A handwritten signature in cursive script that reads "R. W. Stark".
