MEMORANDUM FROM JEFF YEO Department of Fish and Wildlife Resources University of Idaho (208) 885-7823

DATE: January 15, 1991

TO: Taylor Ranch cooperators

SUBJECT: 24 January 1991 meeting - Moscow

Just a reminder of our meeting in Moscow concerning research, teaching and management opportunities at Taylor Ranch. Again, we'll meet in the College of Forestry, Wildlife and Range Sciences Building:

Cooperators Meeting (Room 200, 0800 - 1130)

Seminar: "Integrated ecosystem and pollutant monitoring program for wilderness" Greg White, EG&G Idaho (Room 10, 1200 - 1250)

Seminar: "Aquatic systems monitoring: responses to wildfire in wilderness" Wayne Minshall, Idaho St. Univ. (Room 10, 1530 -1620)

There'll be refreshments available throughout our morning meeting.

I've attached a minimal list of literature related to research in the Taylor Ranch area along with some ideas for research supported by the ranch. Eventually, I'd like to establish a complete library pertaining to the Frank Church RNR Wilderness as part of the Wilderness Research Center. The list is biased towards wildlife and I suspect some of you will have other literature to add.

Please contact me if you have any questions. I can be reached during the evenings at 883-1596.
