The Honorable Cecil D. Andrus, Governor
Statehouse
Boise, Idaho 83707

Attention: John Hough

Dear Governor Andrus:

Following is the budget information you requested from Dean Ehrenreich on the wilderness research proposals package he presented to you last week.

| | |
|--|-----------------|
| 1. Elk - Habitat | \$ 19,000 |
| 2. Timber Resources | 17,000 - funded |
| 3. Recreational Impact | 10,000 |
| 4. Aquatic Ecology | 19,700 |
| 5. Coyote Population | 23,000 |
| 6. Bighorn Sheep | 12,000 - funded |
| 7. Marmot Populations | 10,000 |
| 8. Cultural Resources | 13,000 |
| 9. Student Wilderness Study Honorarium | 10,000 |

These are all very worthwhile wilderness research projects with principal investigators of national and international reputations.

By funding as many of the projects as possible, we can establish longrange research programs requiring the Idaho Primitive Area, in particular the Chamberlain Basin, to remain in it's present form of wilderness management.

Very Sincerely,

Kenneth M. Sowles
Asst. to the Dean
