Inter-Office Memorandum

To Ken Sowles

From James R. Fazio

Subject Wilderness Research Center

Date Sept. 17, 1975

I am pleased to report that Dr. Schomaker has accepted our invitation to be a member of the Wilderness Research Center Technical Board.

I suggest we meet next Tuesday any time after 9:00 a.m.

As items for the agenda I would like to suggest:

1. Parliamentary procedure for all future meetings.
2. Precise definition of the board's role, including management policy decision regarding Taylor Ranch.
3. Which we should proceed with first, an annual report or the brochure.
4. (optional) A rundown of funding available to the Center for such things as the brochure, operating costs, etc.

Enclosed is the slide you requested for the 8 x 10's. The others will be available as needed. We should probably start getting copies of all slides depicting Center activities. I would be happy to catalogue and house these.
