

To J. Ehrenrich, Sector WRE

From H. M. Seales

Subject Taylor Ranch

University of Idaho
Inter-Office Memorandum

Date 1/5/76

I talked with Dr. Hernoeter this A.M. concerning the lion pen on the ranch property. He is willing to assist us if we decide to dismantle the pen and remove the material from the ranch.

The points he made:

1. "The original official trail for Big Creek goes through the area where the lion pen is, therefore we shouldn't consider putting the Pat's camp there.
 2. "The T-Road was originally purchased to show tangible evidence that I was interested in wilderness research, and not to have all wilderness ^{research} quartered there."
- I think these are ^{research} significant points that we should consider in future decision making.
