Date

In addition I think we should ask those who are interested in Wilderness Research to or in conducting research under the aegis of, or in cooperation with, the Center if we can list them as "Affiliates" or "Cooperates" so that your next letterhead can be

Wilderness Research Center

A. I. Erickson Director

Affiliates

- M. Hornacker, Coll. of Forestry
- K. Hungerford " " etc

Seems a little pandora's but if utilized properly should work.

Only suggestion I have is that perhaps I should ask the Technical Advisory Committee. (I don't think we can appoint them - just ask them to serve. Make me a list of those for 4 yrs & those for 2 and I will prepare the memos.

To Dean Stark

UNIVERSITY OF IDAHO
Inter-Office Memorandum

From A. W. Erickson, Wilderness Research Center

Subject _____

Date June 29, 1971

At the time of my appointment, Dr. Coonrod suggested that it might be desirable to establish a committee advisory to the Director of the Wilderness Research Center. I have given considerable thought to this, and should like to propose an advisory structure consisting of two committees.

The first of these committees would be an executive committee designed to be advisory to the director on such matters as inter-agency and public relations; promotion of funds and resources for the center; provide some direction on research needs, particularly as bearing on public attitudes and the problems of resource management agencies; and give council on faculty and facility development.

The second committee would be a technical advisory group capable of advising the director on such matters as: (1) specific research projects, (2) how best to perform and co-ordinate the research activities of the center, (3) specific facility and equipment needs necessary to carry out research objectives, and (4) faculty development.

The composition of these committees could take a number of forms. As a starting point, I propose the following:

Executive Committee

1. Representative from Technical Advisory Committee (appointment by election of that committee)
2. Regional Forester, U.S.F.S., Region I, or his designee
3. Director, Idaho Fish and Game Department, or his designee
4. A National or State elected official
(suggested appointee, Senator Church)
5. A prominent Wilderness personage
Appointee suggestions:
Mr. Wilber Cole, Western Representative,
Sierra Club Foundation, San Francisco
Mr. Stewart Brandberg, Executive Director,
The Wilderness Society, Washington D.C.
Mr. H. Johnson, Western Representative
The Nature Conservancy, San Francisco
6. An Industry Representative, preferably an alumnus
7. Regents' or Administrative Representative
8. Ex Officio, [Director of Research Development] *Research Coordinator*

Inter-Office Memorandum

Subject _____

Date _____

Appointments to the Wilderness Research Center Executive Advisory Committee will be made by the President of the University of Idaho with the exception of the Representative from the Technical Advisory Committee. Appointments, including those of designees, will be limited to a maximum of five consecutive years except in the case of the appointments of the U.S.F.S. Regional Forester and the Director of the Idaho Fish and Game Department.

Technical Advisory Committee

Suggested appointees and their area of discipline:

1. Dr. Maurice Hornocker, Wildlife; or Dr. E. Tisdale, Range Management;
College of Forestry, Wildlife and Range Management
2. Dr. Doyle Anderegg, Botanist; or Dr. Donald Johnson, Zoologist;
College of Letters and Science
3. Dr. Edgar Michalson, Economist, Water Resources Institute
4. Dr. Douglas Grant, Resource Law, College of Law
5. Dr. David E. Olson, Systems Modelling, College of Engineering
6. Dr. H.S. Duncombe, Political Science, College of Administration
7. Dr. V.E. Montgomery, Psychology, College of Education
8. Dr. Peter K. Wilson, Business Administration,
Boise State College, Boise
9. Dr. R. Daubenmier, Vegetation Analysis,
Dept. Biological Science, Washington State University
10. Dr. V. Schultz, Biometrician, Dept. Biological Science,
Washington State University
11. Dr. G.A. Petrides, International Parks and Wilderness,
Michigan State University, East Lansing
12. Dr. John Hendee or Robert Lucas, Wilderness Research,
U.S.F.S. Forest and Range Experiment Stations,
Seattle and Missoula, respectively
13. Mr. Willard Troyer, Wilderness Supervisor,
U.S. Fish and Wildlife Service, Anchorage, Alaska
14. Ex Officio, Director, Research Development *Research Coordinator*

UNIVERSITY OF IDAHO
Inter-Office Memorandum

To _____

From _____

Subject _____

Date _____

Appointments to the Wilderness Research Center Technical Advisory Committee will be made by the Academic Vice President. The appointments will be for a maximum period of four years except one-half of the initial appointments which appointments will be for two years and subject to full four year re-appointment.

I would appreciate any suggestions on this prior to preparing an implementing memorandum to President Hartung and Vice President Coonrod.
