

Wilderness Research Center Advisory Committee
Addendum to minutes for March 31, 1993 meeting

1. Results from appeal for campus-wide wilderness activity

- a. see printout from University Research Office
- b. 3 listings with wilderness/roadless components
- c. none designated as affiliated with Wilderness Research Center
- d. there are a number of other wilderness-related scholarly activities on campus that are not listed, e.g. Dennis Geist, Geology: geology of lower Middle Fork of the Salmon River; Marv Henberg, Philosophy: book on wilderness; Ed Krumpke & Laurie Matthews, RESRC: information outreach for FCRNRW, Leon Neuenschwander & Charlene Lendermann, ForRes: fire mapping in Selway-Bitterroot Wilderness; and others.
- e. we need a better mechanism for identifying and tracking wilderness research at UI

2. Selection of Taylor Ranch Field Station interns, summer 1993

- a. field station support intern: received 8 excellent applications; selected Sushan Han, sophomore majoring in pre-vet/wildlife resources
- b. wilderness research intern: received 3 applications; committee (Bunting, Johansen, Yeo) unanimous in selection of Jason Karl, sophomore in wildlife resources

3. 1993 research/teaching at Taylor Ranch Field Station

a. teaching:

WLF/RESRC 305 - Field Research in Wilderness Ecology; offered jointly with San Francisco State University Wildland Studies Program (12 student limit for SFSU, 10 student limit for UI); 6 enrolled as of March 29 (first day of enrollment)

WLF/RESRC 396 - Wilderness Research Internship; research on coexisting accipiter nesting habitat

b. research:

Reese, UI: forest grouse habitat selection and brood survival; 1st year

Peek & Yeo, UI: bighorn sheep forage-based carrying capacity model for winter range

Peek & Yeo, UI: nonforested habitat descriptions for Salmon River drainage

Peek & Yeo, UI: annual monitoring of plant community composition and productivity

Peterson, ISU: survey, inventory and monitoring of amphibian and reptile populations

Trost, ISU & Yeo: avian community monitoring

Yeo: small mammal community monitoring

Minshall, ISU: stream response to fire

Holubetz, IDFG: chinook salmon population & habitat study

also Steve Amstad & Frank Roseberry

proposal for records - to Director of WRC - share w/ Don Alexander

copy abstract of each research for advisors - on in at next - introduction -

- also Nathan Kundaen - human resources - intro - library

letter -

3 copies

To

Director of Research

office
dupls

& principal

field master

Director's name

week of June 7th

- 3 - Four Surveys
- 2 - District Passes
- same cover letter
- copy to John

Northam Knudsen - she takes responsibility for
complete bibliography - bibliography
we'll publish it - Hender suggested
