

Highway 9 Railroad Overpass re-vegetation Project

July 2004

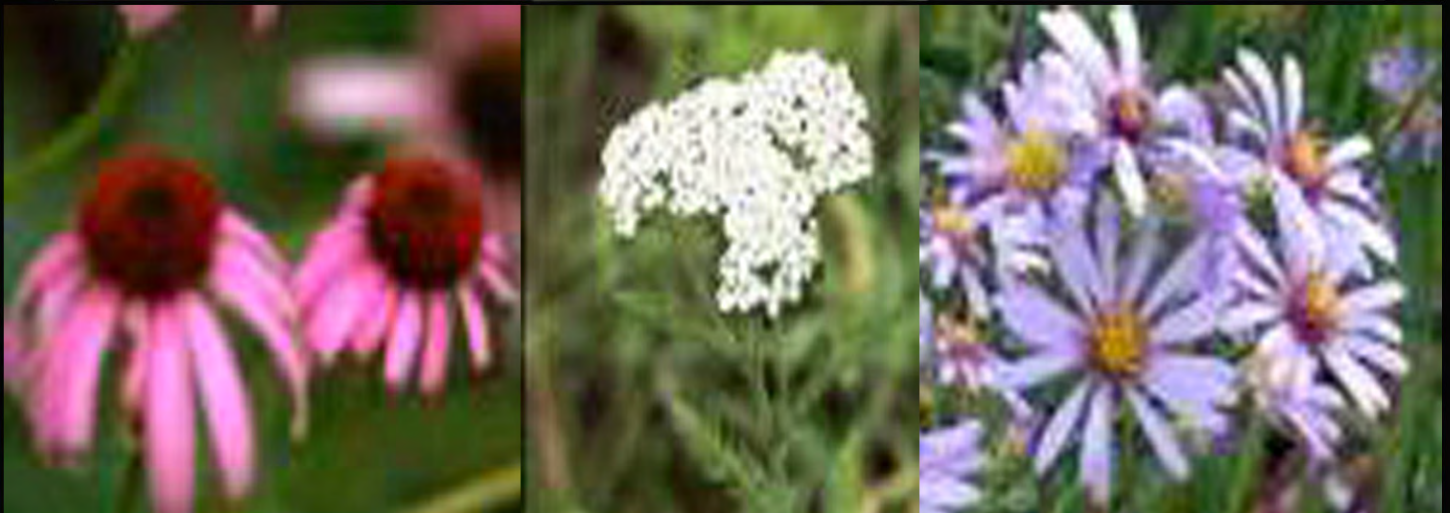

I finished planting the gallon pots out at the site on Tuesday. Attached are the numbers and the species that I are out there. Plot 1 is the first plot on on the left hand side (not too steep), plot 2 is the first on the right hand side (a bit steeper), plot 3 is the west facing slope (visible from hiway), and plot 4 is the east facing slope (protected by trees). I will continue to water out there, probably just two times per week, unless it gets really hot. I do want the plants to survive, but I don't want to baby them too much.

We will be hydroseeding the site this fall--I will give you the exact date and time and species to be used when I get it nailed down.

Greenhouse Plants

Repot Date	Letter Code	Common Name	Species	Number	# Code	
3/28/2004	ACMI	Western yarrow	Achillea millefolium	25	1	25
3/12/2004	AMAL	Serviceberry	Amelanchier Alnifolia	1
