COOPERATIVE EXTENSION SERVICE IN AGRICULTURE
AND HOME ECONOMICS OF THE STATE OF IDAHO
UNIVERSITY OF IDAHO EXTENSION
DIVISION AND U. S. DEPARTMENT OF
AGRICULTURE COOPERATING

POULTRY SECTION

NAMES OF ALL BREEDERS of purebred poultry in the State of Idaho, so far as it is possible to compile them, are recorded in this directory. These names are here presented as reported by the county agricultural agents and the home demonstration agents of the county farm bureaus. In many cases the extension poultry husbandmen are acquainted also with the stock here listed; in many other cases, however, the extension specialists do not have this acquaintance.

In justice to breeders whose names do not appear in these pages, all interested persons are reminded that a task so ambitious as a statewide survey of any sort is difficult of perfect accomplishment. There are likely, therefore, to be names of breeders of good stock omitted from these pages, because they never have been brought, perhaps, to the attention of the agents concerned.

It is the intention that only purebred flocks shall be listed. In many instances these flocks are not show stock, but all are birds that have been bred with high egg production as a constant aim. Many of the flocks represented are, in addition, good show stock.

It is not necessary to send east for breeding stock. Idaho produces stock as good as can be obtained from anywhere outside the state.
